BASKETBALL

Sophomores 20; West Paris High 9
The sophomores journeyed to West Paris under the wing of "Aggie" Brown and rained the town red in a bright and lasting color. The whole town turned out to watch the high school admittance to a licking to the Sophies, but the Norwegians had other plans and completely turned the tables on the Parisians. The game easily developed into a rough and tumble scrimmage with football tactics predominating. Speed they had, as they showed, but their style and adaptability to the old saying, "when in Rome, do as the Romans do," left the Westerners floundering in the mire. With the nifty boys, Lewis and Saleeby, on the floor, rolling in the two-counts was anything but a difficulty. As center, "Deke" DeCoster packed a wicked kick for man-handling the leather, a kick with all the graceful force of an army mule on a tear. In the rear guard marched "Fat" Anderson and "Stonewall" Rogers, the last straw that broke the camel's back.

NORWAY AND VICINITY

Mrs. John W. Wood of Auburn was here recently, the guest of her father, W. A. Bicknell, and sister Hazel Bicknell. Harold Thomas, an electrician employed at Rumford, is home while an injured thumb is healing.
Mrs. H. Walter Brown is recovering from her recent illness and able to take short walks every day.
John Woodman says: "that all teeth will remain white if well taken care of. He says he never drinks anything very hot or cold or eats any acids and brushes his teeth after each meal." "If that all you do to preserve your teeth," "Yes," said John, "except that I use a toothbrush and put them in a glass of water nights."
The Carroll, Jellerson Co. shoe factory is running full time with the regular crew well employed. It is understood that orders on hand insure steady employment for the next two months and probably much longer.

The season's orders are practically filled out at the W. P. Tubbs Co. factory and the crew has been reduced until the new run starts. A large number of snowshoes and skis were manufactured and sold, for a number of weeks the factory ran evenings. Plenty of work for the summer is expected.
Theodore Brown and Donald Rice are home from Bates college for a few days. Stephen J. Cummings is home this week from Boston University.

BOWLING

Norway Waps 1415; Oxford 1356
Paul Boynton's Waps once more saluted from the nest and punctured another victim at Parrin's Alley. In the three string candle pin battle the Waps worked the lanes, Thursday night, for a total of 1415 against Oxford's 1356. "OOT" Ames rolled 122 in a single and 801 for the triple, winning the individual and three string record. Olmstead was second highest with 390. The Waps rolled a 200 for first position on Oxford at 288 with Smith's 8 points behind Oxford. At the end of the second frame the Waps were but four points ahead of the mill town outfit. A sudden windfall in the third when Ames pulled down his big mark, put the Norway contingent in easy street. Oxford rolled their best stuff in this clinch, with McAllister the second highest in a single string, and running ahead of his average. Summaries:

Norway Waps 1357; Oxford 1300
Boynton's Waps again chased Oxford off the field at Parrin's Alley, Tuesday night. Oxford led in the first string of candle pins but the Waps overcame this and swarmed on the high branches during the second and third roll-fest.
Smith of Oxford was high bowler with 303 on Oxford's second place. Smith also captured the highest single string of 115. Baxter, usually a big runner, had an off night and fell behind on his speed to 218.
Donald Randall, the Fuller brush agent, bowled 22 consecutive strings this week with a total of 2220. This is understood to be the longest run to date.

Shoemakers Will Clash
Geo. "Chub" Eastman, the local sporting sage, will organize a bowling team among the cutters at the Norway Shoe Co. Some twelve candidates were placed on probation at the alley, Saturday afternoon, and "Chub" will pick carefully after a detailed study of the tally sheets. It is reported that the cutters at Carroll, Jellerson Co. will place a bunch of stars to try against aspirations "Chub" may have for the shoemakers' championship.

Carnival Week Coming!
Plans are rapidly maturing for a big carnival program by the Norway High School, to be given February 14th and 15th. Soloists, violin, Miss Marion Haskell; piano, Miss Ruth Cummings; vocal, Miss Edith Joslin. Several other selections also are rendered by the High School Orchestra and Chorus. Carnival days will admit bearers to the sports and supper only. A basket ball game and dance will be arranged if possible, to follow the supper, at the Opera House.

NORWAY MUNICIPAL COURT

William F. Jones, Judge
The case State vs George M. Pike of Norway was heard, Monday. Sheriff W. Wheddel the jury, three men, called on the case at the Pike Farm back of Pike's Hill. The respondent pleaded not guilty to keeping and depositing with intent to sell. By agreement the hearing was continued ten days and the respondent placed on his own recognizance for an appearance.

Entertainment for Summer Baseball
The Twin Town Athletic Association scored a clean base hit with a supper and entertainment at Norway Grange Hall, Thursday evening.
About two hundred gathered round the tables where chicken pie was featured together with a long list of home cooked food. No person left the dining hall hungry. There was food in abundance remaining for a sale held later in the evening. A committee including L. M. Carroll, G. E. Hill, P. H. Nevers and L. H. Cunniff, Norway, provided a wonderful spread, they must share honors with a score of ladies who cooked without complaint and personally attended to all the work incidental to a big feast.

The entertainment committee comprising H. A. Anderson, H. Walter Brown, R. C. Andrews secured the cast that presented "Aaron Slick from Punkin' Crick," at the Universalist fair, and the three act drama was presented to the satisfaction of all. Their services were given as a donation to the cause with the assistance of E. L. Burnell, who handled the grossest part effectively. Aaron Slick, not so green as he looks, was played by Donald B. Partridge. Wilbur Merriwede, a crooked speculator, was played by David Kinnell. Mrs. Rose Berry, a lone widow, was played by Mrs. Annie G. Hill. A poor sweet city girl, Adele DeCoster, was played by Mrs. Adele DeCoster. The Girl in Red, vamp with light fingers, was played by Lucy Cobb. The Girl in Blue, a devoted wife, was played by Mrs. Adele DeCoster. All parts were well done and delighted the audience.

"Aaron Slick" was a "regular one" except in courting the "widder." With nerve to "sail" a spring with oil, he quailed in the presence of "Wilbur" Merriwede, until extenuating circumstances in the last act brought him to an enthusiastic proposal.
Mrs. Rose Berry, a widow of ten years duration proved a regular home body, but in the matrimonial market with Aaron Slick, she proved a different creature. Her longing for city environment nearly caused her a financial disaster, but thanks to Aaron's shrewdness, this was averted.
Wilbur Merriwede, although a smooth article nearly outwitted the widow, but Aaron was too much for this speculator and triumphed at the game.
Gladys Merriwede, sweetly innocent in farming conditions, caused much amusement in the family where she was a summer boarder.

"Six Rigs," a sort of waltz with all the rough stuff common to wild life in the prospecting candidate, Her longing for city environment nearly caused her a financial disaster, but thanks to Aaron's shrewdness, this was averted.
Wilbur Merriwede, although a smooth article nearly outwitted the widow, but Aaron was too much for this speculator and triumphed at the game.
Gladys Merriwede, sweetly innocent in farming conditions, caused much amusement in the family where she was a summer boarder.

"Clarence Green" was not prominent in the story but a connecting link to dispose of a bad man. He appeared at the farm disguised as a tramp, and popped up at Chicago as a waiter in a fashionable hotel.
The "Girl in Red," a sample of a professional sneak thief and "Yap" worker, tried her wiles on "Aaron" while he was visiting in Chicago. He looked like sick picking for the girl and she had "Uncle Aaron's" personal effects well in hand until he suddenly turned the trick with his customary shrewdness.
True's orchestra gave their services and played between the acts and during the entertainment. Members of the orchestra comprised Harley True, Roy White, Kenneth Dulles, Myron Gilman, Arthur Morgan, Clarence DeCosta, Charles Garcelon and Rex Mills.

Lawrence McCarrroll, chairman of the committee, appeared before the footlights with a neat speech bristling with humor, and with the cheerful assertion that another strong baseball team will no doubt be assembled early next spring. He thanked his associates on the supper committee, the ladies for their efficient help, and every person in any way assisted in this first, grand get-together for summer sport. Members of the committee have since expressed themselves in a similar manner.
Other entertainments are to follow during the next two months that the small deficit may be wiped out and a foundation laid for next season.

Clarks' Ball
The 30th annual ball given by the Norway Clarks on February 12 will be one of the most attractive gatherings for the winter. Dance tickets are selling rapidly and the committees are working hard to make the affair a success.
Balcony patrons should not forget the concert by the Philharmonic Orchestra of Biddeford. A program of popular music will be rendered before the grand march which will form at 9 o'clock.
Sixteen numbers and two extras are on the dance order, to include waltzes, fox trots, Boston and Portland Polkas, Lady of the Lake (ladies choice), and Leap Year Waltz. "The Ugly John Hazelton of Portland will act as prompter and celebrate his thirtieth annual appearance in that capacity.
Special notice should be made of the Philharmonic Orchestra. This is the same musical group that has played at the Old Orchard pier for several seasons. Their good work is too well known for extensive comment and the clerks are confident this snappy dance team will provide an evening of enjoyment to all who may attend.
Refreshments will be served in the hall by a couple of experienced clerks. A checking room will prove a safe place for overcoats and wraps.

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

A Story of Success

How Studebaker Cars became leaders

145,000 people last year paid \$200,000,000 for them

THE most talked-about cars among fine cars are the Studebaker Sixes—at \$975 and up. Sales have almost trebled in the past three years. The demand for these cars, growing by leaps and bounds, has been Motordom's chief sensation.

Over \$200,000,000 was last year spent for Studebaker models.

Now we wish to explain, to all who are interested, the reasons for that success.

Studebaker has always led

For 72 years the name Studebaker has stood for quality and class.

Studebaker equipages, in the carriage days, held premier place. The White House owned them in the days of Grant and Harrison.

Now we make motor cars only. But the Studebaker name, in this modern field, simply had to maintain its prestige.

We had the money, we had the incentive—we who now control. And our one ambition has been to maintain the Studebaker place.

\$90,000,000 assets behind us

Studebaker assets are \$90,000,000. We have \$50,000,000 in modern plants and equipment.

Not old plants re-adapted. We have spent \$32,000,000 in new plants in five years. We have equipped them with 12,500 up-to-date machines.

Over \$8,000,000 was spent on drop forge plants alone. Another \$10,000,000 on body plants, to maintain our prestige in coach building.

We believe that no other plant in the country is so well equipped to

build quality cars as Studebaker.

Engineering—\$500,000 yearly

We created an engineering department which costs \$500,000 yearly.

There are 125 skilled men there who devote their time to studying betterments in cars. They make 500,000 tests yearly.

There is a department of Methods and Standards. They decide and fix every standard in these cars.

We spend \$600,000 yearly to machine all surfaces of crank shafts, just as in Liberty Airplane Motors. That is the reason for that perfect balance, that absence of vibration.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in America. The Light-Six more than any competitive car within \$1,000 of its price.

Open cars have real leather upholstery. They cost \$25 more per car than imitation leather.

Our closed cars have Chase Mohair upholstery. This is made from the soft, fleece of Angora goats. And a Sedan requires from 15 to 18 yards.

Velour for this upholstery would save us up to \$100 per car.

Note the finish of every detail. Mark the infinite care. They add 25% to labor cost on luxurious closed bodies.

Note the completeness of our larger closed cars. The nickel-plated bumpers, the extra disc wheels and cord tires, the steel trunk, the courtesy light, etc. Think what they would cost you, bought as extras.

Thus we have made the Studebaker the leader of quality cars. We have built a demand exceeding 145,000 cars per year.

Learn the results of these efforts, in fairness to yourself. Don't buy a car at \$1,000 or over without knowing what we offer.

Compare the parts and details. Mark the advantages we offer—scores on scores. Our experience is that 95% of those who do that buy a Studebaker car.

Learn why 145,162 bought Studebakers in 1923

Studebakers hold the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.

Learn why all these buyers preferred Studebakers.

Our factories employ 1,200 inspectors, to make 30,000 inspections on all Studebakers cars. Few flaws, few mistakes can escape them. That, we believe, is the finest organization ever devoted to motor car building.

The price of quality

On some steel alloys for vital parts we pay 15% extra to get them exact.

SWEEDEN

Black Mt.

On Sunday morning Jan. 27, old Mercury dropped the lowest it has for years on the hill, registering 26 below zero.

During the big blow, Saturday night, Guy Tower's chimney burned out. Considerable uneasiness was felt for some time as the wind carried the sparks all over the barn, but owing to the snow on the roof they did no damage.

Ed. Campbell of Lovell is cutting pine for Guy Tower on the Charles Libby lot. An entertainment and box supper was held at the schoolhouse, Friday night. The entertainment caused much fun and laughter, and was carried out in a fine manner showing lots of time spent by both teacher and scholars. Calvin Briggs auctioned off the boxes after the entertainment and received a snug sum for the school league. It was a bad night but the attendance was good.

Grace Bryan was confined to the house, Monday, by illness.

Ed. Berry's family are all having the bad colds going around.

Russell Haggert of West Bridgton is cutting pine for Guy Tower on the Charles Libby lot.

Mr. and Mrs. Calvin Briggs very pleasantly entertained friends and neighbors lately with an oyster stew supper followed by an evening of card playing.

HAD TO LET HOUSEWORK GO

So Ill Husband had to do the Work. Completely Restored to Health by Lydia E. Pinkham's Vegetable Compound

South Bend, Indiana—"I was all run-down, tired out, and had pains in my back and bearing-down pains. I was so sore I could hardly drag myself around and was not able to do a bit of housework. My husband worked all day in the shop, and then came home and helped me at night. The doctors said I had female weakness, and there was no help but to be operated upon, and of course that would cost us a great deal. My husband heard about Lydia E. Pinkham's Vegetable Compound at the factory and bought me a bottle of it. I had begun to think there was no help for me, but I took three bottles of it and now I feel like myself once more. The price for three bottles wasn't so much as the doctor had charged. I cannot praise Lydia E. Pinkham's Vegetable Compound enough."—Mrs. DORA OSBORNE, 430 Sherman Avenue, South Bend, Ind.

Women troubled with female weakness should give Lydia E. Pinkham's Vegetable Compound a fair trial—now. For sale by druggists everywhere.

SOUTH PARIS

High School Notes

Fri. evening, Feb. 8, at 7.30, there will be two games of basket ball at the high school gymnasium. The local high school teams entertain the basket ball teams from Woodstock high school.

On Friday, Feb. 1, the girls' basket ball team of South Paris went to Mexico. Those making the trip besides Coach Horney were, Frances West, Doris Judd, Dorothy Dennison, Doris Davis, Tina Cummings, Marion Wheeler, Evelyn Stanley, Helen Judd and Bernice Parsons.

At a meeting of the members of the girls' basket ball team, Wednesday night, Frances West, '24, was chosen captain. Tina Cummings '24 is manager.

The results of the first class game of the girls' basket ball is as follows: Seniors 9, Sophomores 8, Juniors 16, Freshmen 6. Other class games will be played later.

South Paris High School will send a Winter Sports Team to compete in the Carnivals at Auburn and Augusta.

The Senior Class held a social on Friday night, Feb. 1.

Wilburn Miller has been unable to attend classes for the past week.

The Senior Class have selected "Fan" chon, the Crickets, for their class drama. Rehearsals will begin at once.

First trials for debating were held Wednesday, Feb. 6. South Paris will debate with Leavitt Institute at home and Stephens High at Rumford.

Two classes of the high school are using McIntosh's Rapid Calculation and Proficiency Tests. Namely, the Junior Bookkeeping Class and the Sophomore Commercial Arithmetic Class. Neither class has obtained very good results and it is the intention of the teachers to emphasize this work. It would seem that a thorough foundation in English Grammar and Arithmetic would be more practical to our young people than a foundation in Drawing and Industrial Arts. These latter subjects are essential, no doubt, but what can be more necessary than ability to speak and write our language and to use the fundamental processes of Arithmetic?

The students getting 80% or better as an average for the first twenty-eight Rapid Calculation Tests are as follows: Sophomore Commercial Arithmetic, Marjorie Elwell, 81; Esther Curtis, 85. Junior Bookkeeping, Ethel Holt, 83; Hilda Haata, 82; Raymond Maxim, 83; Doris Thurlow, 88.

The students getting 80% or better in the first Proficiency Test are as follows: Sophomore Commercial Arithmetic, Gertrude Cummings, 80; Marjorie Elwell, 80; Hazel Wing, 80; Mary Slattery, 80. Junior Bookkeeping, Ethel Holt, 90; Gladys Ross, 90.

Attendance record of Mrs. Brown's room for week ending Jan. 25:

EDWARD FARRINGTON, 3 1/2 days; Annie North, 1 day.

STANDING OF ROOMS: 1. Freshman A, 0; 2. Freshman B, 0; 3. Mrs. Brown, 25; 4. Senior, 45; 5. Miss Hillman, 85.

This week games at the High School Gym brought forth the most enthusiastic crowd yet and two exciting games were witnessed. Scores: High School 40, Mason Mfg. Co. 16; Clerks 22, Paris Mfg. Co. 20. A. Pratt, Judkins and Jackson played well for the high school, Judkins scoring 19 points. Kline was the best marksman that the Townmen produced.

The second game was close all the way. Hubbell and Durepo vied with each other to keep their team in the lead. The teams were very well matched. The Paris Company uncovered a passing game that had the boys of "The Square" worried at times. The games were both cleanly played, the majority of the fouls called for were technical points. These games and the gymnasium as a whole should develop a clean class of sportsmanship. Athletics serve to bring out either the best or worst in a man and no organization should tolerate anything but clean, hard competition. We need to set an example before our young people that will develop the best in them and not the opposite characteristic. The lineup:

W. W. Ripley has all his ice house near Park street bridge besides furnishing a large quantity to individuals.

John Wright: "The morning average temperature for January only one degree warmer than for the same period in 1923. Zero and below were about the same number as last year."

A 30 minute ride will win you to the new Essex.

And you will join the legions who know this new Six, that is built by Hudson, in saying it provides ideal transportation.

It continues the well known Essex qualities of economy and reliability. It adds a smoothness of performance which heretofore was exclusively Hudson's. Both cars are alike in all details that count for long satisfactory service at small operating cost.

Steering is like guiding a bicycle. Gears shift easily. Care of the car calls for little more than keeping it lubricated. For the most part that is done with an oil can.

Fuel economy is impressive. Oil consumption is unusually low and tire mileage surprisingly high.

The New Essex is backed by a service policy that keeps maintenance down to the minimum.

NORTH WATERFORD

Mrs. Winfield Brown has had an infection in her finger, caused by a hang nail so had to have it opened.

Mary Dresser spent the week end with her mother, Mrs. Nora Dresser. Mr. and Mrs. Wm. Fiske and Mrs. R. T. Fiske were there, Sunday.

There was a good attendance at the Circle Tuesday night and the following program given: selections sung by all, readings by Mrs. George Holt, Mrs. Arthur Sander, Hazel Kimball and Mrs. Charles Saunders, dialogue, "The Morning Call" by Ella Marston and Annie Hazelton.

Velma Hobson spent the week end at her home here.

Mr. and Mrs. Winfield Brown were at Norway, Saturday.

Dorothy Green visited at Eugene Lovejoy's, Saturday and Sunday.

The following pupils received a rank of 100 per cent. in spelling for the week ending Feb. 1st: Lewis Decker, Donald Gray, Alfred Hersey, Sarah Hersey, Winola Kilgore, Edith Littlefield, Stanley Lord and Stanton Ray.

What is wrong with the postoffice service between here and Lewiston? A package left here a Saturday and never was delivered until Tuesday.

Lynnwood Fogg was here Saturday night and had a radio installed at Will Ray's and Wallace Elliott's, but neither party purchased.

Hazel Kimball was a supper guest and spent Friday evening at Annie Hazelton's.

Sanibel Island

Sanibel Island, not Sanibel, is near the west coast of Florida opposite Fort Myers. Some over 25 miles from the mainland, takes 2 hours to cross. There are two hotels and a large boarding house here. This is the height of the tourist season. Hotels are fast filling up, they stay until the first of April and some as late as May. There are two churches here the Methodist and Baptist. The two churches have united and hold their services in the Methodist Church. A large store keeps dry goods, groceries, hardware, etc. The name of the boat going from Fort Myers to Sanibel is "The Dixie."

There are many tarpon, a very large fish, seen here enroute to the island. Mr. Marr caught a small fish resembling a cow, quite a rare fish. Old Ocean holds many wonderful secrets, but many of them the waves are continually casting up on the shore for curious eyes to find.

Ku Klux Klan

Between four and five hundred people braved the snow storm Tuesday evening and gathered at Norway Opera House where Rev. A. O. Henry of Akron, Ohio presented a general survey of the movement with results obtained by the Invisible Empire in a comparatively short time.

The meeting opened with a prayer, after which the speaker launched into his subject in no uncertain manner. The history of the original K. K. K. formed after the Civil War was reviewed and that organization was given the credit of saving the Southern states from the Northern "carpet baggers" who swarmed there during the reconstruction period. Their mission ended and the organization ceased to function.

The modern K. K. K. is not the old machine, except in name and purpose, according to the speaker. It is to make one hundred per cent Americans; protect the public schools, make the home pure and keep our institutions from grasping politicians and the Popul Corporation at Rome. "The ballot is the only weapon to be used to defeat candidates and movements un-American."

Speaking of the political situation, Mr. Henry named many states now under Klan control. Candidates, regardless of party, not measuring up to high American principles, have not a ghost of a show at the polls in those states.

Even in Maine the Klan holds the balance of power. All persons seeking state office must give satisfactory evidence of their loyalty and good character if an election is expected. As the Invisible Empire is the greatest and most far-reaching detective agency in the country, a candidate that does not square up as a place on the losing end. "This is a positive fact," said the speaker "and we will prove it to your satisfaction about next election time." Mr. Henry stated that few realize the strength of the Klan in Maine and the swift methods by which members can receive information. He said so perfect is the message conveyance that within twenty-four hours 40,000 Me. Klansmen can be assembled at Portland or other strategic points.

The Jews and their operations in the country occupied a large portion of the time. Backed with authentic statistics, the speaker endeavored to show how with a controlling interest in many prominent industries, the country is being "skinned" by that nationality. As a member of the "Big Three" with Mohammedanism and the Roman Hierarchy, the non-catholic world is on the road to extermination at the hands of this powerful combination according to Mr. Henry's statements. "It takes Henry Ford to handle the Jews," said the speaker.

Roman Catholic hierarchy was again assaulted as in the lecture delivered here in November, and a challenge was hurled to any person who will find his statements not correct and not proven by indisputable facts. He emphasized the public school situation where pictures of George Washington and Abraham Lincoln in many text books. He said the cry against our school system is all not when compared with the results from the product of Catholic education. In the last clean-up in Philadelphia he stated from 1,000 persons arrested over 800 were Catholics. "Show me a Catholic school flying the American flag, within or without the structure," he challenged. "It's not a person's religion, but the use he makes of it that interests the Klan."

The meeting lasted nearly two hours and the audience remained until the closing prayer. Many questionnaires for membership in the local Klan organization were accepted. Many copies of the Maine Klansmen, the state paper, were sold.

About fifty ladies gathered in the afternoon at the Opera House and were addressed by Mr. Henry who substituted for the woman organizer who was unable to be present. Applications were received for a local organization for women will soon be underway.

A party of young people including Frances and Mary Jones, Bertha Brown, Stephen Cummings and Charles Cummings enjoyed a trip to North Pond for ice fishing.

Hathaway and Edwin S. Cummings. The committee was present during the examination and will receive the engineers report later.

Fred Bradbury was called to Lewiston, Sunday, to see his father, Samuel Bradbury at the Central Maine General Hospital. Mr. Bradbury died Sunday afternoon.

She was taken, Sunday, to the Central Maine General Hospital to determine the extent of the injury. Her age is 65 years and it is feared several weeks may elapse before her recovery.

All who are planning to attend the Lincoln Day observance at South Paris should notify Jesse P. Edwards or Chas. F. Kidlon.

Carpenters started work on the American Legion building, a made some progress until held up by snow. The basement floor is in place and part of the sills laid on the cement walls. Considerable lumber is on the spot and work will continue as weather permits. The building committee expect to have the home ready for occupancy in early spring.

Ralph Bonney is chef at Young's Cafe. Fred Young is pastry cook and when Bonney will carry on the baking days.

ABRAHAM LINCOLN

"One of the greatest Americans, one of the two or three great men of the 19th century; and one of the greatest men in the world's history."—Roosevelt.

Lincoln's shadow lengthens with the passing of the years. He stands out not only as a great American but as one of the greatest characters of all time.

A plain man of the people, he was never rich in this world's goods, but no one has left a greater heritage to future generations. His words of wisdom, the principles which he upheld and his great character will live on, making him truly, "The Man of the Ages."
